STATEMENTS SHOWING
REASON FOR Relief

* — The very first reason is while I was up front in the holding cells I witnessed another man abused & beaten almost identical to mine, and if something isn't done now! Sgt Moore is going to kill someone & having no matter what reason they are in the holding cell, whether drunk or mental disorder or someone just plain don't understand his commands & or doesn't get on the floor soon enough! Another reason I seek relief is I've never been treated so bad in all my life. He whips you physically, humiliates you beyond your imagination.

IV

Complete demoralizes you, in public,

The second reason I feel I am deservant of relief is not only the physical damage he has done, including 4" scar over my right eye I have to live with, and the damage they done to my smile and teeth.

Not only this but my nerves suffer damage My Memory loss, Which may never come back. The seizures I've had not knowing if or when that might happen again, but the worse is I was a confident decent looking hard working self employed contractor which responsibly took care of my bussiness for over 20 years, now I look terrible, I feel terrible head aches & nervousness, I've lost all my self esteem and my looks. If I'd taken Sgt Bussy & knocked out his front teeth and cut off all his hair and scared his head the way mine is what would he do to me? I am not sure I can start my life over again after I have experienced all this. Will you please help me. I honestly have confidence in the honorable Courts to comply and help me with what relief I deserve

Thank you!

VI

The defendants case is complete fabrication

- * 1- How can a Full Grown 200 LB man run into a steel door knock half his head off and stand there bleeding and steady Hollering what he's gonna do. I never ran into a steel door. I WASNT Bleeding until I waked out and ran into Sgt Moore. After the seen they kept me in a holding cell, so I couldn't find out the names of the people who witnessed some or all of it.
- * 2. They told the doctor at the hospital they could easily take care of me and my D.T.s and they were not prepared for it either, If they can say I run around & into a steel door (which I didnt) but if I had it was still their fault, they should of left me at the hospital.
- * 3. In one part of there report they say I fixed the door and was trying to escape when it happened. A few pages back W. Smith states he unlocked the door and let me out, Now which one is the truth??

Thank you
